HB-5460

To whom it may concern:

I am writing to express my concerns for HB-5460. One again our Legislature is embarking on a witch hunt against free speech among businessmen. By limiting communications with employees because topics are too "political", you again are tilting at another windmill. I want to congratulate you on your ability to demonstrate ignorance concerning what makes Connecticut Business competitive.

If I wish to speak with employees about the political situation at the Capitol, or support a local charity, I should have every right to do so. We spend a lot of time and money trying to maintain a company which competes in the global economy, and our Legislature wants to spend its time micro managing internal conversations. I suggest try to solve our budget problems and move on from the your Alice in Wonderland legislative agenda.

Sincerely,
